

## COVID-19 Message from the Seal Rock Fire Protection District

To all Seal Rock Fire Protection District Residents:

The Fire Chief, Board of Directors and members of The Seal Rock Fire Protection District want to reassure all of you that we remain committed to providing fire, rescue and EMS services to our community whenever we are called upon to do so.

We have always maintained a high standard of pre-hospital emergency care, and will continue to do so in the face of the current coronavirus situation.

We recommend that everyone follow the guidelines outlined by the federal, state and local government agencies at [cdc.gov](https://www.cdc.gov), [healthoregon.gov/coronavirus](https://www.healthoregon.gov/coronavirus) and [co.lincoln.or.us/emergencymanagement](https://www.co.lincoln.or.us/emergencymanagement)

Please remember, we are always ready and willing to help. We need your help to continue to be able to serve our community, without fear of being quarantined ourselves due to unnecessary exposure risks.

Therefore, we ask that you help us help you by letting the 9-1-1 or fire dispatcher know if you are experiencing ANY flu-like symptoms, and/or if your home is under quarantine for any reason.

We appreciate your understanding and assistance.

Thank you,

Thomas Sakaris, Fire Chief
